Assistant Principal

October 8, 2010

Dear Parents/Guardians,

Our school population at Rehobeth Elementary School continues to increase each year. We welcome the growth, but with growth, problems do arise. At this point we have no extra classrooms for future expansion. Fortunately, our Superintendent, Mr. Pitchford, and our Board Members have approved a new building consisting of administrative and counselor offices, a media center, and ten (10) classrooms.

With construction beginning in the near future, changes around the campus will occur. **First and foremost, we want all of our students to be safe. Safety fences will be placed in strategic areas, students will**

be instructed about safety issues, and the northern parking lot (near metal buildings next to Rehobeth Town Hall) will be closed. Parents, teachers, and visitors will no longer have access to this parking lot. For those parents parking in this area to drop-off or pick-up your child/children, we ask you to use one of the two car lines. No more parking spaces are available!

Thank you for your cooperation in this matter,

Pat Tyson
